

## IllumiNazi Hohenzollerns

The House of Hohenzollern are an imperial military bloodline that ruled in Germany, Prussia, and Romania. The Hohenzollerns manage many merchant bankers including the Goldschmidt-Rothschild, Schroder, and Berenberg bloodlines which are all Hanseatic merchant-banking families and these families were made barons under the Hohenzollerns. Schroders manages over 550 billion in assets and was founded by Baron Johann Schroder a noble under the Hohenzollerns. The Hohenzollerns originated from Hechingen, Germany which uses the masonic black and white checkboard pattern for its flag similar to the Hohenzollern coat of arms. They were extensive land owners with castles all over the Holy Roman Empire. Today the President of Germany resides in the Hohezollern's former Bellevue Palace. The Hohenzollerns are elevated at the top of the masonic Illuminati pyramid. The German word Hohe means height and zoll refers to tolls or taxes. The Bank for International Settlements (BIS) which was founded by Nazis is a mediator in fraudulent tax contracts with central banks and has been siphoning off wealth from nations. Prince Christian and Prince Philip are friends with Dieter Meier who is an large shareholder of Orell Fuselli which prints Swiss banknotes and Israeli

shekels. Meier and the Hohenzollerns are involved with counterfeiting currencies. Princess Desiree of Hohenzollern is married to Eckbert Bohlen and Halbach. The Nazi Krupps merged with the Bohlen and Halbachs. Walther Funk and Emil Phul were Nazi bankers and original directors for the BIS. The Hohenzollerns have large amounts of wealth concealed in private banks. The Hohenzollerns and Dutch royals have a close alliance. Princeton was established in honor of the Prince of Orange-Nassau. The Princeton educated Robert Mueller the former Director of the FBI is an agent of the Hohenzollerns with ancestry from Prussia. Their primary function is commanding military operations financed by the BIS which funds covert Nazi style gang stalking. The BIS needs to be shut down and these criminals involved need to be executed. They control society through structural systems. Their basic masonic structure is a hexagram with an upward Illuminati pyramid and a downward Occult pyramid creating a hexagram design of control and the Hohenzollerns sit at the top of the Illuminati pyramid as overseers. Royals refer to themselves as Illuminati. They claim they are illuminated and superior to the rest of society. They are really fascist murderous, and deceptive psychopaths with a false sense of superiority.

In military this is called having the "high ground" and this creates an advantage of oversight in battle. They still own Hohenzollern Castle which is built on top of a mountain above the land all around them. The Hohenzollerns are a Nazi-Illuminati military bloodline working closely with the Saxon noble families which they have married with frequently. Prince Oscar of Prussia is the head of the Order of Saint John of Bailiwick-Brandenburg which is a Protestant version of the Sovereign Military Order of Malta. Prince Philip Kiril of Hohenzollern-Prussia is the Royal Patron and Protector of the Knights Templar OSMTJ in the United States. The Hohenzollerns attempted to turn the United States into a Constitutional Monarch under a Hohenzollern king. They base this on the Secret Treaty of Verona where they claim its their divine right to rule. Emperor Frederick III of Hohenzollern-Prussia authorized Deutsche Bank with Georg von Siemens as a co-founder and agent of the Hohenzollerns. The Hohenzollerns also created the central bank of Germany. George von Siemens was born in Prussia and was a member of the Prussian House of Representatives. Deutsche Bank worked with the Nazis and financed concentration camps and the Nazi military. The Hohenzollerns have a portion of ownership over Deutsche Bank which has 1.5 trillion in assets and also shares in the manufacturing company Siemens which has about 133 billion in assets. Siemens used slave labor through Nazi concentration camps. The Nazis and Baron Norman Montagu of England stole 736 million in gold in today's worth from Nazi occupied Czechoslovakia which was stored at banks in London. The Windsors have recent Germanic Saxe-Coburg and Gotha ancestry and

Prince Edward VIII of Windsor was a supporter of Hitler. The Saxe-Coburg and Gothas were directly involved with the Nazis with Duke Charles Edward of Saxe-Coburg and Gotha who was a politician in Nazi Germany. The Saxons have married with the Hohenzollerns numerous times. The Hohenzollerns and Saxe-Coburg and Gothas are owners and commanders over several Neo-Nazi organizations including the American Nazi Party, Aryan Nations, Public Enemy No. 1 and some factions of the Aryan Brotherhood. The Hohenzollerns also infiltrate militaries. The Hohenzollerns also own Gremium a criminal biker gang in Germany. The Yoh family are Hohenzollern agents worth about 2 billion and own Day & Zimmerman and manufacture ammunition for the United States military. Pope Pius XII or Eugenio Pacelli who made an alliance between the Nazis and Vatican was the godfather of Prince Ferfried of Hohenzollern.

Emperor Wilhelm II was from the Hohenzollerns and Saxe-Coburg and Gothas and his actions and ideologies helped to create the rise of the Nazis. Even with the Hohenzollerns being "exiled" after WWI they returned to Germany and reclaimed their castles, titles, and land. Wilhelm II's son Prince August Wilhelm of Prussia joined the Nazi party. The Nazi general Hermann Goring and Nazi officer Hermann Balck were Knights of the Order of Hohenzollern currently headed up by Prince Georg Friedrich and Prince Karl Friedrich. The top German royals were in on the Nazi conspiracy and used it as a power grab and that is why they still reside in Germany today and still claim their princely titles. WWII was a global war engineered all around by the royals and nobles so that they could develop weapons and technology, seize more land, persecute and kill off their opposition under the disguise of war, and seize more control of various governments out of their engineered chaos. The Hohenzollerns use the black and white masonic checkerboard on their coat of arms. Luke Rudowski is a shill working for the Hohenzollerns and uses a black and white Hermetic logo. Rudowski who is Polish and from New York is an agent of the Polish Radziwills which have resided in New York and served the Hohenzollerns. The Donhoffs are German counts serving the Hohenzollerns. The Romanian Hohenzollerns moved to Switzerland after losing their throne to communism however returned to Romania during the 1990's. The Nazis were socialists. Socialism is another name for communism. Communism is really a take over program used by monarchs when they lose favor of the people. Communism is not sustainable and is used for short periods of time as a tool of oppression. The Romanian Sturdzas with Prince Eric Sturdza own Banque Eric Sturdza located in Switzerland. The Ofer family run Israel Corporation through their Ofer Brothers Group and they are Romanian Jews and Court Factors for the Romanian Hohenzollerns. Eyal Ofer and his brother Idan Ofer are wealthy Zionist billionaires. The Arison family

are high level Zionists with Romanian ancestry and they are agents of the Romanian Hohenzollerns with the billionaires Micky Arison and Shari Arison. The Hohenzollerns and their Isenberg associates used their Jewish cousins the Eisenbergs to create Israel Corporation. The Jewish Goldschmidt-Rothschilds converted to Roman Catholicism and became nobles under the Hohenzollerns. Baron Cyril de Goldschmidt-Rothschild is a current noble under the Hohenzollerns and his family's bank co-founded Commerzbank which has about 500 billion in managed assets.

Three of the five Masonic orders in Germany were founded in Prussia during the Hohenzollern's reign. The lodges were the Die Grand National Mother Lodge, the Grand Land Lodge of the Freemasons of Germany, and Lodge Royal York of the Friendship. The head of Freemasonry are the grand lodges in Scotland and England. The Hohenzollerns are self identified Protestants however that is their front and they serve and work for Rome. Princess Sophie of Prussia is Roman Catholic and the wife of Prince Georg Friedrich. Princess Sophie is from the Isenberg family with her father Prince Franz-Alexander of Isenburg as the head along with his son Prince Viktor of Isenberg. The Isenbergs manage the Jewish billionaire Eisenberg family that founded Israel Corporation as well as the very evil actor Jesse Eisenberg. The Isenberg name means Ice-berg and they were behind the Titanic insurance fraud scheme through their German agent Gustav Wilhem Wolff whose company built the Titanic. The Titanic was switched with its damaged twin sister ship which was possible sunk by the German U boat. The royal families are all intermarried and work together. Their real religion is sorcery and lies. The murderous psychopath Prince Georg Friedrich is the current head of the Prussian House of Hohenzollern and his wife is Princess Sophie. Other members include Prince Karl Friedrich of Hohenzollern-Sigmaringen and his wife Princess Katharina Maria, Prince Ferfried, Prince Alexander , Prince Ferdinand, Prince Albrecht, Prince Carl Christian, Prince Hubertus, Prince Oscar, Prince Christian-Sigismund, Prince Christian-Ludwig, Prince Joachim-Albrecht and his brother Prince Friedrich Wilhelm, Prince Aldabert and his wife Princess Eva Maria and their sons Prince Alexander, Prince Christian, and Prince Philip, Princess Sybille, Prince Philip Kiril, Prince Franz Wilhelm, and his son Grand Duke George Mikhailovich of Russia as well as the remaining royals of Romania including Crown Princess Margareta, Princess Elena, Princess Irina, Princess Sophie, Princess Maria, Prince Paul-Philippe and Prince George Nicholas Alexander Lambrino. These Hohenzollerns are pure evil.

Prince Karl Friedrich of Hohenzollern-Sigmaringen and his wife Princess Katharina Maria of Hohenzollern-Sigmaringen. The Prussia Crown authorized the creation of Deutsche Bank and it was also the Prussian Crown that created Reichsbank which received the gold stolen by the Nazis through the Bank for International Settlements and then melted it down and covertly gave a portion of it to the Hohenzollerns. The Bank for International Settlements admits it was involved in theft of gold by the Nazis however they do not admit the real amount of gold stolen or where that undocumented gold went.

**Investigations after the war revealed that the Reichsbank had used large quantities of gold stolen from central banks in the occupied territories to make wartime payments to a number of institutions including the Swiss National Bank and the BIS. This gold had been remelted at the Prussian mint to conceal its origin. In this manner, during the war, the BIS received 3.7 tonnes of gold from the Reichsbank which, it emerged from German records captured after the war, had originally been looted from the central**

Prince Karl Friedrich of Hohenzollern-Sigmaringen still owns this castle. Maintaining castles like this is extremely expensive. The Hohenzollerns have large amounts of wealth both in their personal bank accounts and secretive wealth in private banks which they use to finance their agents and agendas.

[https://en.wikipedia.org/wiki/Sigmaringen\\_Castle](https://en.wikipedia.org/wiki/Sigmaringen_Castle)

**Sigmaringen Castle** (German: Schloss Sigmaringen) was the princely castle and seat of government for the Princes of Hohenzollern-Sigmaringen. Situated in the Swabian Alb region of Baden-Württemberg, Germany, this castle dominates the skyline of the town of Sigmaringen.

**It is still owned by the Hohenzollern-Sigmaringen family, although they no longer reside there.**

Prince George Friedrich of Hohenzollern-Prussia and his wife Princess Sophie of Isenberg both with very obvious genetic sub human features. This is a continual pattern. Sub humans thinking they have the right to be rulers over others. The concept of royalty is false. The royals and nobles need to be exterminated. The name Hohen-Zollern means High Taxes. Also the Hohenzollerns claim to be the head of the NWO all the time. Those who are the more dominant families don't feel the need to declare themselves the head because they are not stupid. They do this to distract from the Black Nobility which are propping up these extremely evil royals and nobles of the Holy Roman Empire as they always have. Regardless the House of Hohenzollern is completely evil and murderous and they need to be hunted down and killed.

**As a Protestant descendant of Queen Victoria**, Georg Friedrich was **in the line of succession to the British throne** from his birth **until his marriage in 2011**. As **he married a Roman Catholic**, according to the Act of Settlement 1701, he was thus debarred from the British line of succession **until the implementation in 2015** of the Succession to the Crown Act 2013, which **restored any succession rights to British dynasts forfeited because of marriage to Roman Catholics**.

Hohenzollern in the middle. Prince Friedrich Wilhelm on the right works for UniCredit Luxembourg a large Italian bank which is covertly owned by the Borgheses and Torlonias who are currently married with the royal family of Luxembourg. Both the Torlonias and Hohenzollerns are the top managers of the Bank for International Settlements. Prince Joachim and Prince Friedrich are high level Nazi commanders and they are extremely arrogant and murderous and top members of the House of Hohenzollern. They manage Prince George Friedrich in the middle.

Prince Friedrich Wilhelm and Prince Joachim Albrecht are high level Nazi royals with authority over banking and military and they appear to be agents of the Torlonia and Borghese banking families. The Black Nobility had their mafia throw a Hohenzollern off a building which was declared a suicide while he was temporarily released from prison. The Italian Mafia has large operations in Germany. The mafia specializes in fake suicides by throwing bankers off of roofs like the 50 or so bankers that mysteriously died during the Libor Scandal.

I wish to put in the **RECORD** the **secret treaty of Verona** of November 22, **1822**, showing what this ancient conflict is **between the rule of the few and the rule of the many**. I wish to call the attention of the Senate to this treaty because it is the threat of this treaty which was the basis of the Monroe doctrine. It throws a powerful white light upon the **conflict between monarchical government and government by the people**. The Holy Alliance under the influence of Metternich, the Premier of Austria, in 1822, issued this remarkable secret document :

## **SECRET TREATY OF VERONA**

The undersigned, specially authorized to make some additions to the treaty of the **Holy Alliance**, after having exchanged their respective credentials, have agreed as follows:

ARTICLE 1. The high contracting powers being convinced that the system of representative government is equally as incompatible with the monarchical principles as the maxim of the **sovereignty of the people with the high divine right**, engage mutually in the most solemn manner, to use all their efforts **to put an end to the system of representative governments**, in whatever country it may exist in Europe, and to prevent its being introduced in those countries where it is not yet known.

ART. 2. As it can not be doubted that the **liberty of the press** is the most powerful means used by the pretended supporters of the rights of nations to the detriment of those princes, the **high contracting parties** **promise reciprocally to adopt all proper measures to suppress it, not only in their own states but also in the rest of Europe**.

ART. 3. Convinced that the principles of religion contribute most powerfully to **keep nations in the state of passive obedience which they owe to their princes**, the high contracting parties declare it to be their intention to sustain in their respective States those measures which the clergy may adopt, with the aim of ameliorating their own interests, so intimately connected with the preservation of the authority of the princes ; and the **contracting powers join in offering their thanks to the Pope** for what he has already done for them, and solicit his constant cooperation in their views of **submitting the nations.**

ART. 4. The situation of Spain and Portugal unite unhappily all the circumstances to which this treaty has particular reference. The high contracting parties, in confiding to France the care of putting an end to them, engaged to assist her in the manner which may the least compromit them with their own people and the people of France by means of a subsidy on the part of the two empires of 20,000,000 of francs every year from the date of the signature of this treaty to the end of the war.'

ART. 5. In order to establish in the Peninsula the order of things which exhisted before the revolution of Cadiz, and to insure the entire execution of the articles of the present treaty, the high contracting parties give to each other the reciprocal assurance that as long as their views are not fulfilled, rejecting all other ideas of utility or other measure to be taken, they will address themselves with the shortest possible delay to all the authorities exhisting in their States and to all **their agents in foreign countries**, with the view to establish connections tending toward the accomplishment of the objects proposed by this treaty.

ART. 6. **This treaty shall be renewed** with such changes as new circumstances may give occasion for, either at a new congress or at the court of one of the contracting parties, as soon as the war with Spain shall be terminated.

ART. 7. The present treaty shall be ratified and the ratifications exchanged at Paris within the space of six months.

Made at Verona the 22d November, 1822.

5 wild **conspiracy theories surrounding the sinking of the Titanic**

**The ship was attacked by a U-boat**

The Titanic is known as one of the biggest peacetime maritime disasters in history. The tragedy missed the onset of the First World War by two years.

**But some still speculate that a German U-boat was really behind the ship's sinking.**

If such a theory panned out, that'd make the Titanic's sinking a precursor to that of the Lusitania. In 1915, a German U-boat torpedoed the British ocean liner off the coast of Ireland, killing 1,198 people.

**The Titanic never sank**

In the book "Titanic: The Ship That Never Sank?" researcher **Robin Gardiner wrote that the whole disaster was the result of an insurance scam** by the International Mercantile Marine Co., which owned the White Star Line. **The Olympic and the Titanic** were both White Star Line vessels.

According to Gardiner's theory, the trouble started when the **Olympic crashed into a warship in 1911**, and was blamed for the accident in an ensuing inquiry. As a result, the White Star Line — an IMM subsidiary — was unable to receive an insurance payout.

There's a theory out there that **JP Morgan sank the Titanic** in order to pave the way for the establishment of the Federal Reserve Bank in the US. The bank's creation was reportedly opposed by millionaire **John Jacob Astor**, mining magnate Benjamin Guggenheim, and Macy's co-owner Isidor Straus.

So what reason would Morgan have to allegedly sink his own ship? Conspiracy theorists say that, in the interest of **clearing away opposition to the Federal Reserve Bank**

Nice article. There's only one problem here:

"The Titanic and Olympic ships were switched after the Olympic crashed into another ship in 1911 and then they intentionally sunk the Olympic disguised as the Titanic for insurance fraud and to kill off a rival banker John Jacob Astor. It is very possible they used a German U-Boat of submarine to sink the ship with a torpedo. It is believed that JP Morgan was behind the sinking of the Titanic to take out John Jacob Astor a banking rival who opposed his creation of a federal reserve bank."

No ship sank at all. The Titanic disaster was a massive hoax and nobody died, nobody got hurt. The wreck is also fake. In fact, it's possible that the Titanic never even existed. It was a massive insurance hoax like 9/11.

There was no opposition to the Federal Reserve on the Titanic, either. There's no first-hand evidence that Astor or any of the first-class Titanic passengers opposed the creation of a central bank in the United States. There is however, evidence, that at least one of them was in favor of it (Isidor Straus).
